

Got A Need For SPEED?

VS.

Compared head-to-head, **Sani Professional® CLEANING MULTI-SURFACE WIPES** make clean-ups quicker!

GUEST EXPERIENCE

Single-use product enhances perception of cleanliness and encourages repeat business. Turn tables and seat guests faster while helping reduce cross-contamination.

Dirty rags and buckets are unsightly. Product used table-to-table could result in risk for cross-contamination.

LABOR SAVING

No mixing or measuring, minimal training required. Quick and easy to use on any surface. Wipe, Toss. Done.™

Staff training and monitoring required. Multiple products needed for different surfaces.

EASE OF USE

Reduces time spent cleaning. Enables any staff member to easily perform clean-ups as needed.

Requires constant mixing/remixing of cleaning products, and more frequent trips to BOH.

VERSATILE

Use FOH surfaces including tables, chairs, glass, stainless steel and more! Specially formulated to be safe for use on digital devices, protecting your investment.

Can't be used on all surfaces – especially sensitive digital devices.

SPEED

Fast-drying, streak-free formulation enables employees to complete clean-ups quickly and easily.

Long dry times, and surface streaking.

ACCESSORIES

Available dispensing accessories increase product portability and usability, helping ensure cleaning happens more often, where and when needed.

Time-consuming trips to replace rag, replenish cleaning agent or swap out for a different product.
